

Sub-Assembly Manifold for Medical Applications

In order to blend the proper amount of gases to obtain a desired level of anesthesia, these units utilize the capabilities of Clippard control and electronic valves series. These valves allow you to deliver an accurate and continuous supply of gases with a precise concentration to the patient at a safe pressure and flow.

Customer Solutions

If you need a product that fits your application perfectly, Clippard has the capability to design or modify one of its products to suit your exact needs. We understand that a standard catalog product may be close but not be exactly what you need.

MAR Series Regulators

Special Configurations and Assemblies.

- Robust
- Compact
- Reliable

Assembly Services

Call Clippard for assistance with your application, assembly and testing. Clippard can provide full tested sub-assemblies for your application or device.

Value-Added Service

Clippard has pioneered the miniature pneumatic industry. We have an expansive line of components that are used in thousands of applications across many markets. It is this experience and knowledge of our own products that is now available to our customers when collaborating with Clippard to develop the right solution. Our production, engineering, and sales staff will come together with your organization to design, build, QC, and ship your pneumatic assembly when you need it.
