

08 Electronic Valves – Custom Solutions

Clippard's Electronic Valves are incredibly flexible from a production standpoint.

- Custom Voltage
- Custom Flow Rate
- Custom Max Pressure/Vacuum

Tight Assemblies
Cartridge design is desirable for integrating valves into compact assemblies. This EVP proportional valve is calibrated to meet the customers flow range and maintain „zero“ leak rate, and is incorporated into the OEM's manifold.

Clippard Integrated Solutions offer optimized pneumatic system design to increase performance, reduce cost, and make your job easier.

If you need a product that fits your application perfectly, Clippard has the capability to design or modify one of its products to suit your exact needs. We understand that a standard catalog product may be close but not be exactly what you need. Let us know YOUR Need, and we will help to find YOUR Solution!
