

Specifications

Material:

Stainless steel core and springs, nylon body, FKM seals, and Nitrile gasket. FKM gasket available, consult factory.

Medium:

Air, Gas or other compatible Fluids

Power Consumption:

1 or 2.5 watts dependent on Orifice Size and Pressure

Temperature Range:

-5 to 50°C

Coil Insulation Class:

F 155°C

Response:

10 milliseconds when energized;
12 milliseconds when de-energized

Voltage:

12 VDC, 24 VDC or 24 VAC.
110 VAC and 220 VAC only available with DIN Connectors.

Voltage Tolerance:

-5 to 10%

Working Pressure:

See chart Page before

Max. Flow Rate:

0.8 Orifice: 45 l/min.

1.1 Orifice: 70 l/min.

1.6 Orifice: 91 l/min.
