

In nearby Fairfield, Ohio, Clippard built a new plant in 1998 to manufacture electronic interface valves and air cylinders. Situated on 16.9 acres this facility

has plenty of room for growth. In Madison, Indiana, a small subsidiary makes acrylic modular circuit subplates. The fourth Clippard facility is four thousand miles away, a sales and distribution center, Clippard Europe S.A., in Belgium.

Visitors to the Clippard plants are most impressed not just with machines and facilities, but with the people. Indeed these achievements are not accidental. Clippard has honed its policies and procedures to create a positive and efficient workplace. Things like job enrichment, lean manufacturing, cross training, safety training, process controls, individual empowerment, and continuing education opportunities have made our work-force second to none.

Mission

The people at Clippard recognize the importance of keeping business and manufacturing thriving in a rapidly changing world economy. Today's fast-paced, industrial market demands productivity. By supplying high quality miniature pneumatic components at affordable prices, along with expert application assistance, Clippard makes the benefits of increased productivity available to everyone.

Markets Served

Clippard's worldwide distributor network has grown to include offices in 30 countries and throughout the U.S., providing quality components for an unlimited list of applications. From a simple two step machine process, to complex automation of sophisticated machinery, Clippard

Minimatics® are used virtually everywhere for control, interface, sensing, logic, and actuation functions. This broad range of applications spans a variety of industries including: machinery, packaging, textiles, medical equipment, animation, agriculture, material handling, mobile equipment, assembly, recreation, electronics, food processing, coatings, security, chemicals, construction, testing, mining, and many more.

Product Lines

Some of the many products offered include Minimatic® valves, cylinders, fittings, modular components, push buttons, stainless steel cylinders, electronic manifold cards, circuit analyzers, and prepped circuit manifold subplates. Special components designed for customer's OEM applications are also available.

Quality

Quality remains a primary feature with every product Clippard produces. This is achieved through the excellence in manufacturing practices and craftsmanship that has continued throughout the years. The high standards set by Leonard Clippard, in company relationships with customers, distributors, suppliers. And employees continue to be upheld. The company motto, "Quality People, Quality Products," emphasizes the important role every employee plays in maintaining the company's reputation.

NEW PRODUCTS!

Some of Clippard's exciting new products include:

	Page(s)
NEW! OXYGEN CLEAN ELECTRONIC VALVES	188-192

NEW! EM STUD MOUNT VALVES	196
--	-----

NEW! ELECTRONIC LATCHING VALVES	194-195
--	---------

NEW! MANUAL AIR VALVES	136-137
-------------------------------------	---------

EXPANDED! PUSH-QUICK FITTINGS	299-305
--	---------
