Markets Served

Clippard has been in business since 1941, and has established a worldwide distributor network which includes offices in 30 countries and throughout the U.S., providing quality components for an unlimited list of applications. From a simple two step machine process, to complex automation of sophisticated machinery, Clippard Minimatics® are used virtually everywhere for control, interface, sensing, logic, and actuation functions. This broad range of applications spans a variety of industries including: machinery, packaging, textiles, medical equipment, animation, agriculture, material handling, mobile equipment, assembly, recreation, electronics, food processing, coatings, security, chemicals, construction, testing, mining, and many more.

Product Lines

Some of the many other products offered from Clippard include Minimatic® valves, cylinders, fittings, modular components, push buttons, stainless steel cylinders, electronic manifold cards, circuit analyzers, and pre-piped circuit manifold subplates. Special components designed for customer's OEM applications are also welcomed. Call to request your free 300+ page full-line catalog.

Web Configurators

Clippard's on-line, state-of-the-art product configurators allow users to build their own products exactly to the required specifications, and then view the details, drawings, CAD models, pricing and much more.
