PV SERIES PROPORTIONAL VALVE

These 8 mm proportional direct-acting valves provide precise, linear control for accurate dosing and flow regulation in critical applications. With low power consumption, they offer excellent energy efficiency while maintaining quiet operation and minimal vibration. Their versatile design makes them suitable for a wide range of medical, diagnostic, and industrial applications.

Standard products offered will fit the needs of most applications, however this series can be fully customized according to the user's unique requirements. Consult Clippard with your specific application.

clippard.com/link/pv8

- Ideal for compact assemblies
- Eliminates downstream pulsations
- Smooth proportional delivery
- Low current power / low to no noise
- Exceptional variability of flow vs. command current
- Tiny package with a robust design
- Highly customizable performance
