

Clippard

Certified IPC/WHMA-A-620
Application Specialist

As part of on-going training and quality improvements, several Clippard team members successfully completed IPC's WHMA-A-620 course regarding the requirements and acceptance criteria for cable and wire harness assemblies. Currently Clippard has one on-site IPC Certified Trainer and six Certified Specialists.

The areas included with this certification include:

- General content, applicable documents
- Crimping & Insulation Displacement
- Connectorization, Molding & Potting
- Marking, Securing & Shielding
- Soldered Terminals & High Voltage
- Splices
