

IPC/WHMA-A-620 and IPC J-STD-001 Declaration

05/01/2025

This declaration affirms that Clippard Instrument Laboratory has trained employees that meet all the necessary requirements in the mandatory module and designation of Certified IPC Specialist (CIS) in the industry developed and approved IPC/WHMA-A-620 and IPC J-STD-001 Training and Certification Programs. These certifications will be subject to renewal in September 2026 and October 2026 accordingly.

IPC/WHMA-A-620 (Cable and Wire Harness Assemblies) Certification modules include:

- Crimping and Insulation Displacement
- Soldered Terminations and High Voltage
- Connectorization, Molding and Potting
- Ultrasonic Welding and Splices
- Harness, Shielding and Protective Coverings

IPC J-STD-001 (Soldered Electrical and Electronic Assemblies) Certification modules include:

- Wires and Terminals
- PCB, Coating, Encapsulation and Staking
- Through-Hole
- Surface Mount Assemblies
- Inspection Criteria
