

Clippard

California Proposition 65

This Act, commonly known as Proposition 65 (Prop 65) establishes a list of chemicals which the State of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm. The complete Proposition 65 chemical list can be found at:

<https://oehha.ca.gov/proposition-65/about-proposition-65>

<https://oehha.ca.gov/proposition-65/proposition-65-list>

Warning: This product may contain a chemical known to the State of California to cause cancer or birth defects or other reproductive harm.

Clippard has instituted a company-wide policy to reasonably make clear that our products may use certain chemicals listed within Proposition 65. All product shipped or sold to consumers in California include documentation with the shipment and reference our website. There are over 1,000 chemicals on the Proposition 65 list and Clippard utilizes some of these chemicals in the materials and processes we use. Although not all products contain chemicals within the list, Clippard is being cautious and diligent in complying with the California Law.

As of March 19, 2021, the chemicals we are aware of and listed within Proposition 65 are:

- Lead: *Found in brass material*
- Nickel Compounds: *Found in stainless steel, brass, magnets and nickel plating*
- Isoprene: *Found in nitrile seals*
- Trichloroethylene: *Used in cleaning and acrylic manifold bonding processes*
- Acrylonitrile: *Found in acrylic materials*
- Cadmium: *Found in PVC wire insulation*
