## Clippard EGV Series Electronic High Flow Poppet Valves

*Cincinnati, Ohio* -- Clippard's EGV Series valves are electronically piloted versions of the GV series valves, ideal for large flow, low leak applications. Available in 1/8" NPT ported and manifold mount, they utilize Clippard 10 mm or 15 mm valves, and offer numerous voltage and connection options. These 2-way and 3-way valves provide 10 times more flow than Clippard's MAV series and 2.5 times more flow than the MJV series! An externally piloted option is available for controlling lower pressures or other media.

- Small, compact, lightweight with high flow
- Electroless nickel plated brass and hard coat anodized aluminum construction for long life and corrosion resistance
- Proven poppet design
- Large variety of control voltages and connections

For more information about these control valves or any of Clippard's 5,000 other pneumatic products, call 513-521-4261 or visit [www.clippard.com](http://www.clippard.com).
