CLIPPARD PNEUMATIC BRASS SILENCING MUFFLERS

Cincinnati, Ohio -- Clippard Instrument Laboratory, Inc. introduces the addition of a complete line of miniature pneumatic mufflers. These silencing mufflers utilize porous sintered bronze air mesh to reduce air exhaust noises from valves, cylinders and other pneumatic products for quiet system operation. Mufflers help to meet OSHA requirements by maintaining safe workplace sound levels below 90 dBA with minimum flow restriction. Available with #10-32, 1/8", 1/4", 3/8" and 1/2" pipe threads. 40 micron filter.

For more information about these mufflers or any of Clippard's 5,000 other pneumatic products, call 877-245-6247 or visit www.clippard.com.
