

## Straight Barb Connector Fittings

11924-1-BLK

Minimatic barb fittings provide a flexible, easy alternative to ferrule and push-to-connect/push-quick fittings. Designed for use with urethane hose, barb fittings will provide a leak-free connection that will hold well beyond the working pressure of the hose without the need for additional clamps.

|                              |                                                                                                                                                     |
