

Straight Barb Connector Fittings

4CQ4-ENP-PKG

Minimatic barb fittings provide a flexible, easy alternative to ferrule and push-to-connect/push-quick fittings. Designed for use with urethane hose, barb fittings will provide a leak-free connection that will hold well beyond the working pressure of the hose without the need for additional clamps.

Accessories	If ordering bulk, seals must be ordered separately: Nitrile: 11761-2 , FKM: 11761-8 , Nylon 11761-4
