

Air Pilot Valve Actuators

M-MPA-10P

Air Pilot Valve Actuators thread onto the tops of Clippard miniature 2-Way, 3-Way, and 4-Way valves to provide fast pilot actuation from a pneumatic signal. They permit wide circuit flexibility and minimize cost, hazards and complexity by allowing many control functions to be accomplished pneumatically.

Accessories	Actuator Spacer 12098-PKG Pkg. of 10, 12098-BLK Bulk
Bore Size	1 1/4"
Input PSI	10 bar
Length	1.625
Material, Body	Brass, Delrin Piston
Material, Seals	Nitrile
Material, Spring	Stainless Steel
Max PSI	10.3 bar
Medium	Air
Mount	M12x0.75 Female Thread
Port, Inlet	G1/8
Unit	Metric
Weight (lbs.)	0.0700
