

Air Pilot Valve Actuators

MPA-10P

Air Pilot Valve Actuators thread onto the tops of Clippard miniature 2-Way, 3-Way, and 4-Way valves to provide fast pilot actuation from a pneumatic signal. They permit wide circuit flexibility and minimize cost, hazards and complexity by allowing many control functions to be accomplished pneumatically.

Accessories	Actuator Spacer 12098-PKG Pkg. of 10, 12098-BLK Bulk
Bore Size	1 1/4"
Input PSI	150 psig max.
Length	1.656
Material, Body	Brass, Delrin Piston
Material, Seals	Nitrile
Material, Spring	Stainless Steel
Max PSI	150 psig
Medium	Air
Mount	#15/32-32 Female Thread
Port, Inlet	1/8"NPT (3/8, 5/8, 1-1/4 Bore)
Unit	Imperial
Weight (lbs.)	0.0700
