

Air Pilot Valve Actuators

MPA-7N

Air Pilot Valve Actuators thread onto the tops of Clippard miniature 2-Way, 3-Way, and 4-Way valves to provide fast pilot actuation from a pneumatic signal. They permit wide circuit flexibility and minimize cost, hazards and complexity by allowing many control functions to be accomplished pneumatically.

Accessories	Actuator Spacer 12098-PKG Pkg. of 10, 12098-BLK Bulk
Bore Size	7/8"
Length	1.625
Material, Body	Brass, Delrin Piston
Material, Seals	Nitrile
Material, Spring	Stainless Steel
Mount	#15/32-32 Female Thread
Port, Inlet	#10-32 (7/8" Bore)
Unit	Imperial
Weight (lbs.)	0.1400
