Air Pilot Valve Actuators

Air Pilot Valve Actuators thread onto the tops of Clippard miniature 2-Way, 3-Way, and 4-Way valves to provide fast pilot actuation from a pneumatic signal. They permit wide circuit flexibility and minimize cost, hazards and complexity by allowing many control functions to be accomplished pneumatically.

When configured with:

– Unit	Imperial
– Port, Inlet	#10-32 (7/8" Bore)

Accessories	Actuator Spacer 12098-PKG Pkg. of 10, 12098-BLK Bulk
Material, Body	Brass, Delrin Piston
Material, Seals	Nitrile
Material, Spring	Stainless Steel
Mount	#15/32-32 female thread to mount to Clippard miniature valves and components.
Port, Inlet	#10-32 (7/8" Bore)
Unit	Imperial
Weight (lbs.)	0.0700
