

Clippard

Oxygen Clean Manifolds

O-15582-12

Oxygen series manifolds are specially manufactured and assembled for applications in oxygen-enriched environments. Each manifold is cleaned according to Clippard Specification #ES-3.41 and double bagged in heat-sealed polyethylene bags. Single- and multi-station units available.

Manifold Type	Double-Sided
Material, Body	ENP Brass
Mount	#10-32 Tapped Holes, 3/16" deep
Notes	Each manifold is cleaned according to Clippard Specification #ES-3.41, and double bagged in heat-sealed polyethylene bags.
Port, Inlet	1/8" NPT In-Line
Port, Outlet	#10-32
Product Line Brochure	Spider Valves
Stations	12-Station
Technical Data Sheet	Data Sheet
