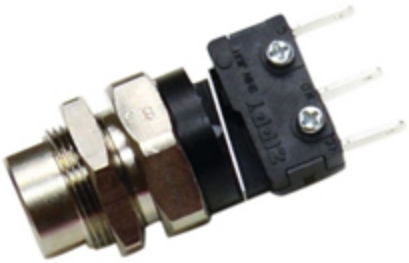
Pressure Actuated Switches

SAS-1A1-40-F



Length	1.490
Nominal Actuation Pressure	40 psig
Port, Inlet	1/8" NPT Female
Product Line Brochure	Mechanical Valves
Switch Current Rating	SAS 5A@125/250VAC, 3A@30VDC
Switch Terminals	110 Series Q.C.
Technical Data Sheet	Data Sheet

SAS Series switches utilize a standard sub-miniature single pole double throw (SPDT) electrical switch certified UL and CSA.

Mechanically-operated models are also available which may be used with any Clippard air pilot or push button actuator. The electrical switch is actuated by a lever arm which may be used as a manual override.

MAS Series switches utilize a standard miniature single pole double throw (SPDT) electrical switch certified UL, CSA, SEMKO and VDE. They are available in #10-32, M5, manual, and female 1/8-27 NPT ports for direct mounting into manifolds.
