

Sanitary Food Grade Tubing

SFG1-1208-NAS-005

This Sanitary Food Grade Silicone Tubing is suitable for various applications in the food and beverage industries where preservation of taste, aroma and color are crucial. Available in 5' or 50' rolls, 12" of this high quality, platinum-cured silicone tubing also comes pre-installed in select models of Clippard's pneumatic and electronic pinch valves.

Durometer Hardness	50 Shore A
Elongation at Break	770%
Length	5' Roll
Material, Body	Platinum-Cured Silicone
Modulus at 200%	280 psi
Notes	Suitable for various applications in the food and beverage industries where preservation of taste, aroma and color are crucial. Excellent flexibility. Entirely non-toxic and non-pyrogenic.
Product Line Brochure	Mechanical Valves
Standards	Meets USP Class VI Criteria. Meets 3-A Sanitary Standards. NSF 51 Standard. FDA 21 CFR Part 177.2600 Criteria.
Tear Strength	200 ppi
Tensile Strength at Break	1,450 psi
Tubing, OD (ID)	3/8" (1/4")
Wall Thickness	0.0625"
