

Polyurethane Tubing

URT1-1610-CLT-250

Polyurethane tubing offers a wider range of chemical compatibility than vinyl, may be used at much higher temperatures, and does not require clamps when used with barb fittings.

Bend Radius	1 1/8"
Color	Clear
Diameter, OD (ID)	1/2" (0.320")
Length	250' Spool
Max. Flow	0 to 105 psig at 100°F (max. 120°F)
Notes	95D Durometer.
Product Line Brochure	Mechanical Valves
Static Burst Pressure	Over 420 psig at 75°F
