

Clippard

Cross Barb Connector Fittings

X42-202-PKG

Minimatic barb fittings provide a flexible, easy alternative to ferrule and push-to-connect/push-quick fittings. Designed for use with urethane hose, barb fittings will provide a leak-free connection that will hold well beyond the working pressure of the hose without the need for additional clamps.

Hose Barb	1/16"-1/16"-1/16"-1/8"
